## EDUCATION

---

University of California, Santa Barbara

2015 **Bachelor's Degree in Chemistry**

## Projects

---

### Portfolio Page

- My portfolio page which contains a full list of my projects: <http://www.dindledoo.com/>
- HTML, CSS, JavaScript

### FreeCodeCamp

June 2015-Present

- Received the Front End Development Certificate from FreeCodeCamp. Front End Certificate requires 500 hours of programming through building projects and developing algorithms to solve problems.
- Taught scope and closure concepts to FreeCodeCamp meetup, tested using Mocha and Chai.
- Maintain the FreeCodeCamp Orange County repository and review pull requests.

### Pomodoro Clock

- Created a Pomodoro clock that allows users to track their productivity time. It uses JavaScript's native time functions to capture information from the DOM, manipulate it, and increment/decrement time.
- HTML, CSS, JavaScript

### Weather

- Created a web application that allows users to get the weather information from Openweathermap for their current location through HTML5's geolocation features or alternatively the user can input a custom location to fetch data for.
- Integrated with Google Image API to return images of the input location
- jQuery, Openweathermap API, Google API

### Unix Timestamp

- Created web application/service that converts Unix timestamps to natural language formats and vice versa.
- Stores user's GitHub OAuth via MongoDB database.
- Web app deployment on the Heroku platform
- Moment.js, MongoDB, OAuth 2.0

### Skills

- |                        |                |
|------------------------|----------------|
| • JavaScript           | • jQuery       |
| • HTML5 & CSS3         | • APIS & JSON  |
| • Git & GitHub         | • Gulp & Bower |
| • Node.js & Express.js | • Java         |
| • MongoDB & Mongoose   | • Heroku       |
| • Python               |                |
